

Amendment and Response to Notice of Drawing Inconsistency with Specification  
U.S. Application No. 09/940,182

REMARKS

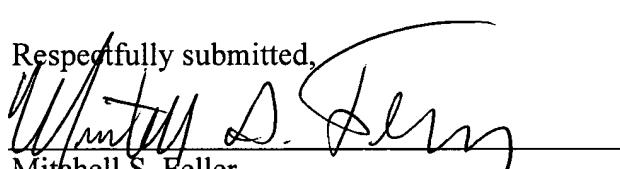

In response to the Notice of Drawing Inconsistency with Specification dated September 21, 2006, applicants have hereby amended the specification to reference Fig. 6E in the Brief Description of the Drawings.

The Examiner has noted that Fig. 10D is mentioned in the specification but is not in the figures. In the Preliminary Amendment (page 2, paragraph 2) filed November 15, 2001, and made of record, applicants amended the specification to delete the reference to Figure 10D from the Brief Description of Drawings. A copy of the Preliminary Amendment is enclosed at tab A. Therefore, no further amendment is necessary at this time.

Entry of the forgoing amendment and issuance of the application are respectfully requested.

Date: October 27, 2006

Respectfully submitted,
